Trifloxystrobin 25.0%

Other Ingredients: 75.0%

100.0%

FIFRA Section 2(ee) Recommendation: This recommendation is made as permitted under FIFRA Section 2(ee) and has not been submitted to or accepted by the U.S. Environmental Protection Agency. It is a violation of federal law to use this product in a manner inconsistent with its label. This product bulletin must be in the possession of the user at the time of pesticide application. Follow all applicable directions, restrictions, Worker Protection Standard requirements, and precautions on the EPA registered label.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product inconsistent with its labeling.

Table with 3 columns: Disease Control, Rate, Application Timing. Row 1: Citrus Black spot (Guignardia citricarpa), 4.0 to 8.0 ounces GEM 25 WG/Acre, Begin applications preventively and continue throughout the growing season using a 7- to 21-day spray interval. Section: Restrictions: Do not apply more than 32 oz. of Gem™ per acre per season. Do not apply Gem™ within 7 days of harvest. To limit the potential for development of disease resistance: Do not make more than four (4) applications of Gem™ or other QoI fungicides per season. Do not make more than three (3) sequential applications of Gem™. Then alternate to at least an equal number of sequential applications of labeled, effective non-QoI fungicides with a different mode of action.
